

Interesting Questions /Answers about PowerTradeCopier

PowerTradeCopier copier with no latency! Do not need to run MT4 terminals!

- 1 **Q.** I have found investor password for profitable strategy with Take Profit 8 pips. I would like to copy orders to my account, but my broker has one limitation: Stop Loss, Take Profit and Pending Orders 10 pips or more away from the current price.

A. You should open “Stops” tab and check “Correct low TP level”

The screenshot shows the 'Stops' tab in the PowerTradeCopier interface. The 'Correct low TP level' checkbox is checked and highlighted with a red box. Other settings include 'Copy SL', 'Copy TP', 'StopLossCopyMode' (P), 'TakeProfitCopyMode' (P), 'Hidden', 'OverwriteSL', 'OverwriteTP', 'NewStopLoss' (200), 'NewTakeProfit' (200), 'move SL', 'move TP', 'SL nul copy', 'TP nul copy', and 'Disable for slave'. At the bottom, there are buttons for 'Save param', 'Refresh param', 'Export select', 'Import select', 'Export all', and 'Import all'.

Copier will copy order with minimal TP size allowed by your broker.

- 2 **Q.** Money manager trades in the account of my friend, and he can provide me with investor password. He trades with lot size 1-2, but sometimes he opens trades with lot size 4 and I do not want to copy this orders. My account is 2 times smaller than his account. Please, advise.

A. I recommend you to use Ratio (MS) =0.5 for lot scaling.

We also recommend you to try to copy this strategy on demo account and try to reduce stop loss level for this strategy.

For example try to overwrite with new 60 pips SL.
