This is a release note of the new trading feature of our website

<http://www.trineaspect.com/index.htm> . The new feature is a trading tool which lists all the time stamps for the daily planets & moon transits including various aspects, ingresses, retrogrades/directs, declination moves and a lot other astro events.

### Day Trading with Astrology -

#### Be ahead of the market and know when the market will become volatile:

Under conventional financial astrology researches, 85%+ of the market movements are caused by these astro events. Keeping track of these will give you a huge advantage over other investors in getting ahead to know when the market will become volatile.

#### Only one time customization is needed:

The below diagram shows there are a number of options on the astro events for one to choose & customize with. Despite it comes with a set of default options, once you have customized your need, the cookie in your computer shall remember your choices and when you re-visit our site tomorrow, the intelligent program will show only the astro events of your concern.

### Data entry for Transits

Transit date: May 18, 2013 (only years from 2010 through 2019 are valid)
