AUDUSD Week 27 Planning:
(1) With a strong D close on Friday closing below the historical S&R 0.91740, we should look at PA to show a pullbacl om H4 then a possible follow through of the D close.
(2) Weekly close LH LL.
(4) Wait for PA to show a pullabck to Fib 38/50, which can be a re-test of 0.91740, then look for continuation.
