- HEIKEN ASHI Candles
- All currencies
- Risk max 2% of your equity on a single trade

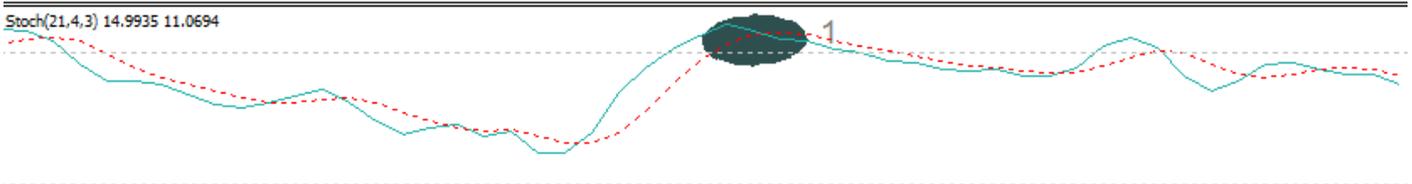

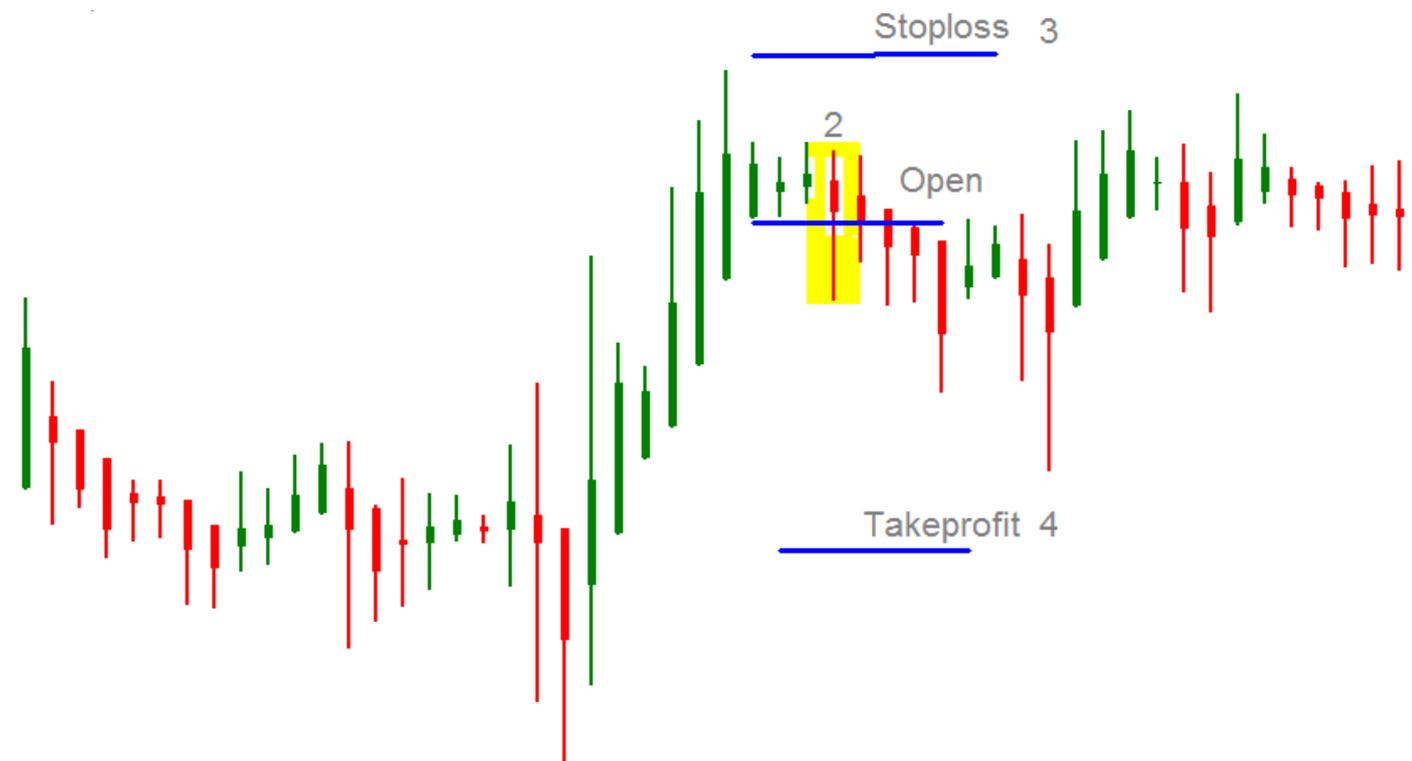

#BUY

1. Both Stochastics Lines cross under the 20 level (oversold)
2. Heiken Ashi Green Candle
3. Stoploss under last swing low
4. R:R = 2:1

#SELL

1. Both Stochastics Lines cross above the 80 level (overbought)
2. Heiken Ashi Red Candle
3. Stoploss above last swing high
4. R:R = 2:1

#ACTION PLAN

1. Print the buy/sell setups above
2. Read them before your trading session (everyday)
3. Keep them on your trading desk
4. Stick with this plan, don't try to change the strategy (it is profitable like this)
5. When you have a few losing trades don't search another system; it is part of trading losing
6. Try this system on DEMO until you are profitable for 4 consecutive months (not merely break-even)(trade like it were your money)
7. Now you can open a LIVE account
8. Don't stay all day on the forums **ONLY ON WEEK-ENDS**
9. Help other traders to improve and grow
10. Read everyday something related to trading like articles or videos on Youtube to improve your performance
11. Instead of watching TV visualize in third person yourself trading in relaxed and calm way, doing this you will deal with emotions very easily over time
12. Enjoy your life outside trading
13. Wake up early like at 6 AM
14. Being a strategy that uses a 4 hour chart between one candle and another you can do a lot of different things
15. Set an exact amount of money that you want where your will stop trading

P.S. : the action plan is valid for every other trading strategy on the planet, the process is always the same

*So that's all from me. One last thing I believe that everybody **MUST** reach a fulfilled life or where you have fully developed mind, body and soul; you can reach that only with money. Now you have all the instruments to achieve your dream.*
