

Welcome

Here are some guidelines on how I scalp using MT4 / MT 5.

Please take your time & finish reading all steps 1 by 1 as every step is important to get the results that you're looking for.

Setting up MT4 / MT5

Make Sure to use STOCHHASTIC OSCILLATOR
with the exact settings below for best results

- 1- K PERIOD ; 3 / D PERIOD ; 1 / SLOWING ; 4**
- 2- PRICE FIEND ; CLOSE/CLOSE**
- 3- METHOD ; EXPONENTIAL**
- 4- LEVEL ; 90/50/10**

Your settings should look like this for Stochastic Oscillator

BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BANKSCAL

BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BAN

BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BANKSCAL

BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BANKSCALPER BANKSCAL

STEP 3

Select any currencies you want & pick spot currencies only

The screenshot shows a trading platform interface with a list of currency pairs and indices. Each item has a checkbox on the right side. The items are:

- EUR/USD Spot
- EUR/GBP Spot
- GBP/USD Spot
- EUR/CHF Spot
- USD/CHF Spot
- EUR/JPY Spot
- USD/JPY Spot
- EUR/AUD Spot
- AUD/USD Spot
- EUR/CAD Spot
- USD/CAD Spot
- EUR/NZD Spot
- NZD/USD Spot
- Dow Jones Industrial
- S&P 100 INDEX
- S&P 500
- Nasdaq Comp

At the bottom of the interface, there are navigation tabs: Markets, Watchlists, Portfolios, News, and More.

STEP 4

This is what you will see on your dashboard

Markets Watchlists Portfolios News More

There will be 3 different colors in the Stock Market App

- Green** – Means the currency pair is currently indicating **STRONG BUY**
- Red** – Means the currency pair is currently indicating **STRONG SELL**
- Grey** – Means the currency pair is currently indicating **Neutral**
(SIDEWAYS)

The Stock Market app has been accurate with the price & condition of the market, I have personally tested this app for a year now.

The app is great at showing direction that is highly accurate & it has been really helpful for me to scalp. For more details on how to set up, please continue reading

If you have seen my group, you will only see my scalping pairs are the same every day. It's because I am familiar with the currency pair. I am sharing this to let you know that focusing scalping on 1 currency pair is good enough when you're familiar with & know how that currency pair works.

Now it's time for the setup

These are the most important points & show you how the bank scalper system works

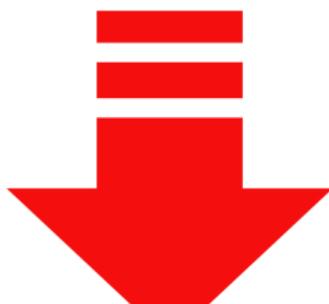

> Setup Signal Buy & Sell

1. Open up MT4/MT5 & you will be looking at M15 Timeframe.
2. Take a look at the position of the STOCH Indicator is at
3. Make sure that STOCH 3.1.4 at M15 TF is at 90 area to standby for a sell entry
4. Make sure that STOCH 3.1.4 at M15 TF is at 10 area to standby for a buy entry
5. If STOCH 3.1.4 (M15) is at 90 area standby for sell entry, for double confirmation use the Stock Market app to see the currency pair which you want to trade is **RED** Means **(STRONG SELL)**
6. If STOCH 3.1.4 (M15) is at 10 area standby for sell entry, for double confirmation use the Stock Market app to see the currency pair which you want to trade is **GREEN** Means **(STRONG BUY)**
7. For a good entry price for BUY signal, switch M15 to M1 and look at where the STOCH 3.1.4 is at, if the M15 STOCH is at 10, make sure that in M1 STOCH is below the 50 level line so you can enter for BUY & layer your scalp
8. For a good entry price for SELL signal, switch M15 to M1 and look at where the STOCH 3.1.4 is at, if the M15 STOCH is at 90, make sure that in M1 STOCH is above the 50 level line so you can enter for SELL & layer your scalp

Refer to the Colors in the STOCK MARKET App to get a sniper entry

Here's some real live trades with the strategies used above

A BIG DISCLAIMER!

PLEASE read all step by step & make sure you understand how it works before jumping into a live account

Try out with demo first!

ENTRY SELL

STEP 1

Make sure STOCH 3.1.4 is at LEVEL 90 in TF M15
EXAMPLE (USDCAD)

STEP 2

Make sure **STOCK MARKET** App shows **USDCAD** in **RED**
(STRONG SELL)

Markets Watchlists Portfolios News More

STEP 3

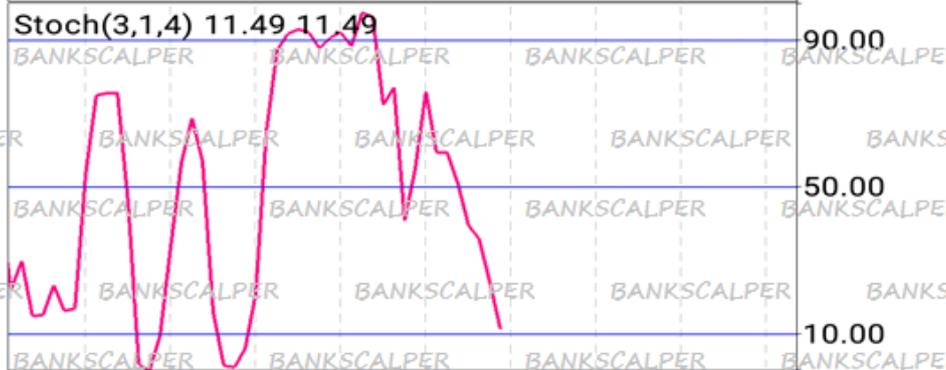

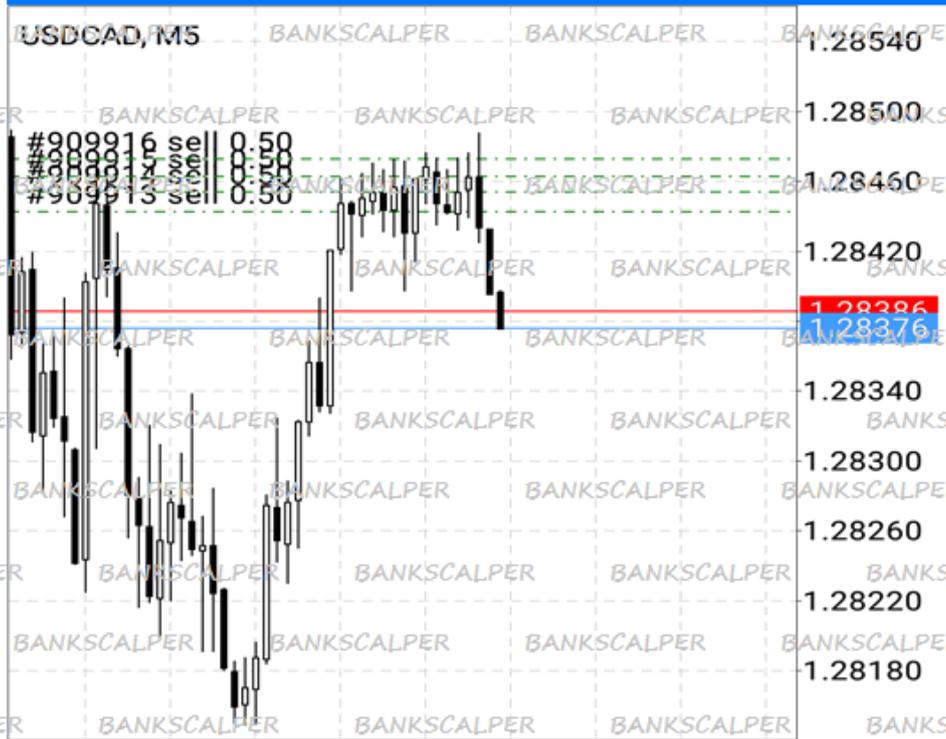

Make sure STOCH 3.1.4 in TF M1 is above level 50 and you can make a SELL entry.

For more confirmation, you can refer to M1 & is at level 90. But at times, STOCH won't reach level 90 so if it is above level 50. It means You can start entering a sell entry too

Results

Trade **142.17 USD**

Balance: 10 353.81

Equity: 10 495.98

Margin: 1 000.00

Free margin: 9 495.98

Margin Level (%): 1 049.60

Positions

USDCAD, sell 0.50
1.28443 → 1.28367 **29.60**

USDCAD, sell 0.50
1.28454 → 1.28367 **33.89**

USDCAD, sell 0.50
1.28463 → 1.28367 **37.39**

USDCAD, sell 0.50
1.28473 → 1.28367 **41.29**

Trade icons: Buy, Sell, Stop Loss, Take Profit, Order Book, Chat

I didn't set TPs as I will close all positions when entries are profitable / profit is enough for those trades

Don't be greedy !

ENTRY BUY

STEP 1

Make sure STOCH 3.1.4 is at level 10 in TF M15

Example : GBPCAD

Navigation icons: Buy, Sell, Stop Loss, Take Profit, Chart, and Chat.

STEP 2

Make sure STOCK MARKET App shows GBPCAD in GREEN
(STRONG BUY)

*Don't have it here, this is just illustration purpose only

STEP 3

Make sure STOCH 3.1.4 in TF M1 is below level 50 and you can make a BUY entry.

B.

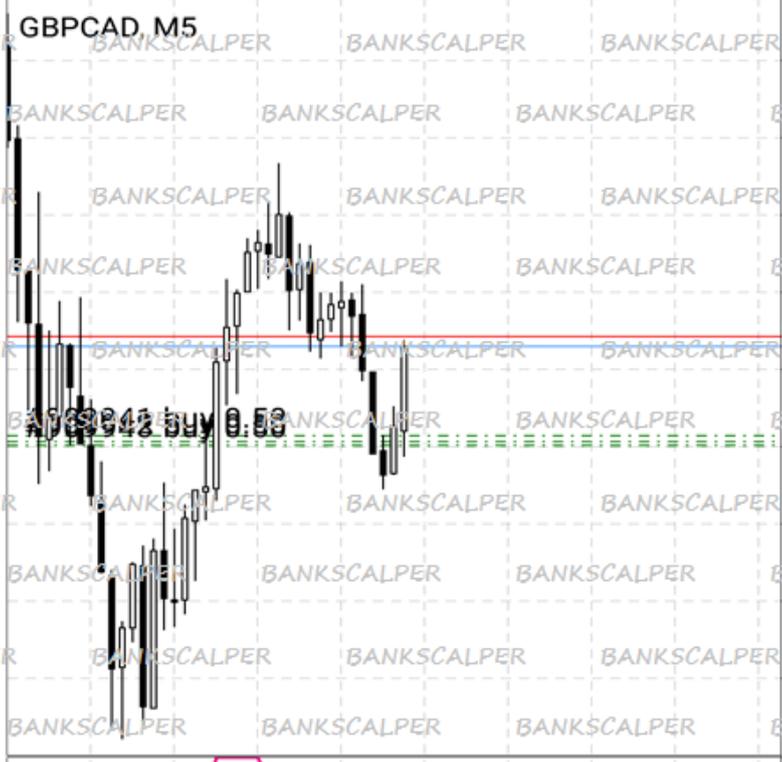

For more confirmation, you can refer to M1 & is at level 10. But at times, STOCH won't reach level 10 so if it is below level 50. It means you can start entering a BUY entry too

B.
