"Dear {Forex Trader}, You Are Now Part Of The FRWC Family"

That's the subject line of the *Forex Robot World Cup*[™]'s welcome message after you join us... that's the notice of hands-free, 100% automatic, proven account-doubling performance.

The question is: Will your name be one of the few select replacing "Forex Trader" above?

We stress "the few select" (and, if you have been following us from the very start, **September 14th - 2009**, you know that we MEAN and DO what we say... with absolutely no forgiveness, EVEN if it might hurt our bottom line).

Well...

In the next 10-15 minutes, after reading this letter carefully and paying close attention to its every single detail (which is the least we deserve from serious FX traders after spending almost 12 months creating a project that is geared towards, first and foremost, benefiting YOU)...

...we want **you** to decide!

Yes, we want you to decide if what we have done, the time we have invested, our solid vision and uncompromised mission, the transparency of every step, process and phase... is what will give **YOU** a hugely profitable and stable automatic income for years to come.

Bottom line...

We have done our job with perfect flying colors judging by *10's of thousands* of loyal visitors to our competition website, and their comments throughout the different competition phases.

Now, how much time you invest in digesting the information presented on this website, derived from our efforts and determination to create a new reality in automated FX trading, will only affect you and your future.

And before we continue, if you haven't yet, do yourself a favor:

Allow yourself to take automated FX trading seriously once and for all: forget about all the hype and useless products and promises out there and LET us benefit YOU with and from our PROVEN efforts.

Ok, let's get down to business.

And, by the way... just as we would expect from anyone we interact with on a daily basis, we know that you demand to hear "no-B.S. ...bottom line" facts, figures and indisputable, uncensored proof.

As we do not like our time being wasted, we understand that you would not want anyone wasting yours - particularly when it comes to your NET profit...

So, that being said...

We will go over each and every tiny detail that concerns your benefits... your understanding and belief that what you are about to be exposed to is a life changing opportunity available to just a select few.

It is NOT every day that uncensored and reliable automatic performance, steaming from the biggest and most important automatic Forex trading competition, is available to the public...

...a RARE Live Account Verified And Proven 18.2% Per Week, Real Net Income - 100% Hands-Free. Period.

Look...

We didn't just magically stumble across the best FX robots in the world, capable of *doubling* your deposit on a monthly basis.

No matter how you look at it, the **facts** speak for themselves: **329** of the BEST FX robot developers in the world applied to get approved for the FRWC competition - only **24** qualified (because of our DEMANDING and TOUGH qualification rules)...

THAT is why we (and soon, YOU) had the privilege of gaining access to the "best of the best" FX robots.

And in a moment...

...we will dig into what "*demanding and tough qualification rules*" means when it comes to YOUR bottom line and account-doubling power (which is what this is all about at the end of the day).

You will understand how far we have come, how much effort we have put in, how much time we have invested (and the amazing end results we achieved) to protect your interests and profits.

**True Profits In The Automated FX Industry Are A Direct Result
Of
Innovation, A Solid Mission, And Uncompromised
Determination...
No Short Cuts Whatsoever... There is **NO** Gray Zone!**

It is what it is... either you have it, or you don't.

Many times in life (well, actually, most), there is no middle-ground... especially when it comes to separating truth from hype...

...and ESPECIALLY in automated Forex trading.

You see, Forex trading is one of those few businesses where the term "*numbers don't lie*" applies the most.

Unfortunately, it is also one of the few industries where it is easy to **twist** those numbers... and FORCE them to lie!

Most likely (and, of course, most unfortunately), over 90% of those reading this letter know exactly what we mean.

And when it comes to twisting the truth... the numbers... Forex product vendors are kings - like in no other industry we have ever seen or experienced.

It is a great shame and, at the same time, the **brutal** truth. The industry has been tainted, hyped, and almost destroyed because of unscrupulous marketers...

...marketers who have one sole objective: *profit at any cost*. Rest assured, they will go ANY distance to meet that objective.

If that means lying to you, misleading you, taking advantage of your lack of knowledge, insulting your intelligence, using false advertising... practically "exploiting you" so to speak... then so be it...

...as long as the objective of getting you to fill in that order form with your credit card details and hitting the "Submit" button has been achieved, everything is "validated" for these people.

Here is a simple fact for you: *did you know that the FX trading industry has higher refund rates **by FAR** than any other niche or industry?*

Why is that?... well, it's quite simple actually.

We are all human beings... and that is why we are all capable of falling for fancy, hyped-up advertising.

We so much want to believe that what we are reading and seeing is true, our logic is forced into the backseat.

But do you know what?... it's actually even more than that...

The unfortunate fact remains - most people reading FX product advertising don't have the *available industry education* to be able to make a genuinely **informed decision** as to whether what they are reading at least has the *potential* of being the truth (one of the most exploited methods of ruthless marketers, by the way).

Here is an example that will shock you:

Mr. Fx-Robot-Vendor posts on his website that an account statement reflects live, real-money performance. Not a backtest, not demo trading... but live, real-money deposits being traded.

Looks nice... looks promising...

Looks *very convincing* actually (especially with all the fancy, hyped-up graphics these people use around the account statement!).

Now...

For truly educated FX traders, this might be ridiculous, but did you know that most people do not know how to **verify** if an account statement posted on an FX vendor website is TRULY live and real-money?

They believe... they trust... and of course, they end up getting "raped" (again, so to speak).

The average FX product consumer has absolutely no idea how to verify this.

But, do you know what?... let us rephrase that... they have absolutely no idea what **VERIFICATION TOOL** the vendor has readily available to him in order to

PROVE the account statement is a live, real-money one.

Be assured, the VENDOR knows what that tool is - trust us on that... it is the innocent buyer who doesn't!

And, of course, this is what *Mr. Fx-Robot-Vendor* exploits to clinch that sale...

This is the weakness, the lack of understanding, the lack of knowledge of his buyers that our "respectable" vendor exploits and benefits from.

So... to the point, and be sure to pay close attention here:

What could *Mr. Fx-Robot-Vendor* have done?... what verification and authentication TOOL was at his disposal to PROVE that the account statement he hypes to death on his website is the real deal... *that it is a truly live, real-money trading account?*

The plain and simple answer can be summed up in just two words:

Investor Password!

The *Investor password* provides you, the consumer, with "view only" access to an MT4 account... in this case, the *supposedly* live account that the robot is being traded on by *Mr. Fx-Robot-Vendor*.

This means, you can:

1. Access the account, **2.** See exactly what has been going on inside it, **3.** Verify trade by trade results, **4.** Verify if it is a demo or live account...

...and yes, verify if that account even exists!

Providing YOU With The *Investor Password* To The "Traded" Account Is The ONLY Way For An FX Robot Vendor To PROVE It Is A Live, Real-Money Account.

(Special Note: It takes no more than 2 seconds for the vendor to provide you with an Investor Password and no more than 1 minute for you to log into his account with it to verify the data)

Further, it is the only way:

- For YOU to be 100% certain that the robot truly works (ONLY live, real-money trading can prove this)

- A robot vendor can establish credibility, trust and be worth YOUR hard earned money.

- *For a vendor to show you ALL the history of the account and not just the hand picked dates and trades they want you to see.*

By the way... it doesn't end there.

If you have even a little common sense when it comes to purchasing FX robots then you know that the cost of the robot is only one element that you should be worried about...

How about your **LIVE**, real-money, hard earned cash account that you are about to place that robot on?

How about the LOSS that you will most certainly suffer (and most people reading this letter probably already have!) because our *Mr. Fx-Robot-Vendor* lied, manipulated the results and HID the fact that the account statement shown to you does not correspond to live trading results or even a live account?

As stated earlier:

*"It takes no more than **2 seconds** for the vendor to provide you with an Investor Password and no more than **1 minute** for you to log into his account with it to verify the data."*

So the real questions become:

- *Why Wouldn't YOU demand it?*
- *Why wouldnt Mr. Fx-Robot-Vendor provide it of his own free will?*

And the unfortunate and simple answer:

**Because You Didn't Know The Naked TRUTH Until Now...
And Because *Mr. Fx-Robot-Vendor* Exploited Your
Lack Of Knowledge... "Exploited Your Trust In Order To
"Nail-That-Sale".**

Look... let's cut the B.S...

We both know that if *Mr. Fx-Robot-Vendor* COULD get YOU into that "*real-money, live results*" hyped-to-death, advertised account (with all the graphical bells and whistles on it) by providing you with an investor password, he would!

Why? Because that would quadruple his sales, at least.

So why would a slick, professional marketer who knows his marketing numbers not allow you to see the truth behind that supposedly "live, real-money account" if this would mean more money for him?

Well, you now know the answer...

And yes, we know we'll get a lot of heat and criticism from most FX robot vendors from today onwards for exposing this...

...but the plain truth is that *The Forex Robot World Cup*[™] was established for a reason... it was established with a solid mission and unhindered vision... and THIS is what we owe our visitors, clients and, of course, ourselves.

Now...

Before we move on... do you remember earlier when we said there are no shortcuts in the automated FX industry... *no gray zones*? That it is either black or white?

Now you know the truth...

Now you know what to look for when buying a Forex robot...

Now you know how you were taken advantage of in the past and what to do in the future.

But most importantly...

...you now know the MAIN tactic that ruthless marketers use to "rape" innocent people.

Do yourself a favor from now on and take the concept of "due diligence" much more seriously.

What Dramatic Changes Were Needed In The Industry? What Was Required To Secure YOUR Income? What Needed To Be Done To Secure A Steady REAL MONEY 145.60% Profit In YOUR FX Account?

Well... the answer is simple but, at the same time, *unheard of*...

An INDEPENDENT, professionally organized, 100% transparent and UNCENSORED event that will attract the absolute best non-commercial FX robot developers under one roof, competing in one international championship....

The biggest and most important automated FX trading competition on the planet.

An automated FX trading competition that will, above all, have the guts to do things as they SHOULD be done, from start to finish.

No compromises... no middle-grounds... complete, uncensored transparency and HIGH profitability from start to finish.

And that is how the *Forex Robot World Cup™* (FRWC) was born.

Our mission:

A. Put a brutal end to all the hype in the industry

B. Stop ALL distasteful "exploitation" of FX consumers by unscrupulous marketers due to lack of know knowledge, confidence and trust

C. Introduce the public to the concept of GENUINE transparency in automated FX trading

D. Finally bring FX traders high-performing, long-term and reliable profit-pulling automated robots

The FRWC's Conerstones

- 1 Transparency
- 2 Profitability
- 3 Equality
- 4 Value
- 5 Opportunity
- 6 Choice

...in essence, cleansing the industry of all the **venom** that heartless marketers have pumped into it, and educating the consumer regarding how automated FX trading should be...

But, most importantly, giving YOU access to the most profitable, LIVE-traded, verified and tested, robots on the planet.

That is what it's all about at the end of the day...

Making sure that YOU make money, and a lot of it.

Making sure that once and for all, you can sleep well at night knowing that your robot(s) are working **FOR** you... and **NOT** against you.

Now...

We knew what we wanted to achieve regarding our mission, regarding what the market TRULY needs... but how do you achieve all this?

More to the point:

How do you get people to actually experience the reality of what true automated FX trading is all about?

How do you get them to forget about all those bad and self-destructing habits they managed to develop due to sick and many-times **illegal** activities that ruthless and greedy marketers use to suck every single cent from them?

The only available way to achieve this mission... to bring back decency and real profitability to automated FX trading...

...Is To Conduct A Professional, Transparent And *Equal Opportunity* Global FX Robot Competition And Let **NATURE** Decide Who Is The Best...

Yes... *nature*.

- Not an FX robot vendor who is clouded by his obsession to *rob* your wallet... of course, not caring whether what he sells you works or not.

- Not a "Make 200% Per Week **GUARANTEED**" ad on the Internet.

- Not false and misleading advertising.

But, a true **NATURAL** competition accessible to every single Forex robot developer on one hand...

...and on the other hand, with tough and **unforgiving** qualification rules.

That is the **ONLY** way to achieve **REAL** results based on true hard work, not based on hyped, senseless marketing.

You can spin it however you want... the bottom line remains the same - **ONLY** hard work can achieve great results...

..and when it comes to hard work, trust us... we know all about it. During each stage of the FRWC competition, we have seen how hard **HUNDREDS (329** to be more exact!) of FX robot developers worked in order to qualify for the biggest and most important automated FX competition in the world.

Building a good Forex robot is HARD WORK...

Yes, we know that many people do not know this... and again, that is not their fault but the fault of ruthless FX product marketers.

But the fact remains, people have been conditioned to **BELIEVE** it **is** easy to build a great Forex robot...**why?**

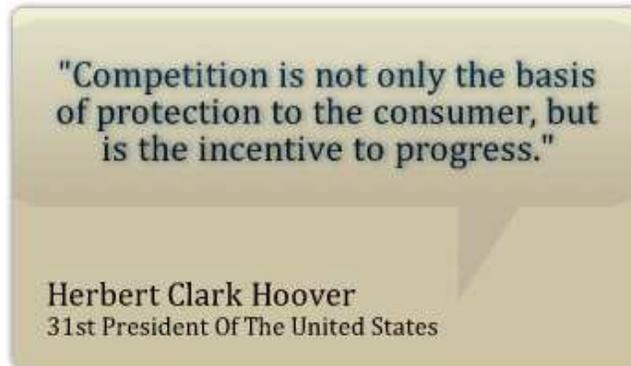

Well... to start with, if the robot **COST** you the equivalent price of 2 movie tickets and a large pizza, that is **EXACTLY** what you are going to get in terms of value!

But, do you know what?...

You might actually be better off eating something and watching a good movie... **PLUS**, that way, *you also save your FX account deposit from being depleted.*

Alright, let's put a full stop to the B.S...

NO-ONE in their right mind will sell a great robot for that price. **NO-ONE!**

The sooner you get to understand that, the better off you will be in terms of your bank account and of course, your heartburn!

So, we return once again to the central point... ONLY hard work, dedication, persistence and experience can produce a true profit- pulling FX robot...

THAT My Friend, Is How You Achieve Perfection - Solid And Stable Profits... 72.80% Per Month (REAL MONEY) Performance Robots

THAT is the true route to financial independence...

...by trading REAL robots on real-money accounts, designed by REAL, dedicated, "competition grade" experts... and NOT by "wallet robbing" marketers.

The *Forex Robot World Cup*™ is the ONLY organization in the world that:

1. Brings the most dedicated, expert and serious FX robot developers in the world under one roof
2. Has the toughest competition qualification rules in the industry (in order to protect **A.** The quality of the competition, and **B.** Consumer interests)
3. Conducts a 100% transparent (24/7 publicly accessible results), professional competition
4. Tests ALL competing robots on LIVE, real-money accounts
5. Allows the public to get access to the winning robots (the true **gems** in the automated FX industry) stemming from the competition

The *Forex Robot World Cup*™ is proud to present the TRUE process, the ONLY mechanism capable of producing the best FX robots in the world... and securing your financial FREEDOM:

YES... the BEST FX robots in the world, period... And **NO**... not because WE say SO...

...But Because The Biggest And Most Important Competition On The Planet DECIDED So...

...based on the rules of nature... and NOT misleading, unethical and many times illegal marketing tactics hyped and exploited to death by ruthless FX product vendors.

No matter how you look at it and no matter in what industry....

A competition is the ONLY valid way to weed out the average and, at the same time, qualify the best.

AND...

A worldwide competition, the biggest of all, is ABSOLUTELY the only way to find not just the best... but, the Best Of The Best. **The top 1%**.

We are sure you can relate to the following:

No doubt there was a good "short sprinter" in your high school... someone who could run like Hell... always broke school records.

So what?

Is that guy running in the Olympics today? Of course not... he was good for THAT category, for that level... but not the best of the best (BY FAR, NOT)...

And THAT is what the *Forex Robot World Cup*[™] is all about...

the absolute best international competitors, the UNDISPUTED World Champions...

And the end product of ALL This is What YOU Will Get... FX Robots That:

- Produce financial freedom for **you**
- Work on true **auto-pilot**
- Are **100%** hands free... "plug & play" technology

Financial security, real exponential wealth growth, true profits day in and day out... that is what this is all about and THAT is what, for the first time in automated FX trading history, you will GET.

"Once And For All... Automatic Income For You... The RIGHT Way, The ONLY Way, The PROVEN Way"

Forex robots... hands down, THE best income opportunity available in today's market... without doubt, the perfect solution for anyone searching to increase their wealth dramatically and EXPONENTIALLY.

It can truly be mind blowing to realize how rich one can become by trading FX automatically.

It is not like in the old economy anymore...

...where you had to work 18 hours per day, have 50 employees, a huge office, inventory, headaches, stress... but, most of all, a VERY deep pocket to fund all that little "fun" operation/venture.

And, by the way... that wasn't only in the old economy - even today, for most people that is the only way to make real big money...

However...

The HUGE difference between now and then, is that today there IS another CHOICE!

Today there is a MUCH better, easier, more profitable and most of all... automatic, 100% hands-free option...

Forex Robots Offer A Lifetime Opportunity For Automatic Income, Huge Profits... And Yes,

All On Complete Autopilot Mode.

Install them in under 5 minutes... then let them work for you... let them produce REAL, hard cash for you...

...While you sleep, while you play, while you are spending quality time with your family or friends... while on vacations... these amazing FX bots work and EARN for you... spendable money, real cash...

Simply put: *a new lifestyle*.

Honestly now...

Can a normal "old economy" manned business, even if run to perfection, produce a NET profit of **354.37%** in ONLY 19 days FLAT?

That is a brutal average DAILY NET profit of *18.63%*.

Can ANY type of business or income opportunity (online or offline) compete with an FX robot producing that?

The answer is... NO!

NOTHING can compete with a Forex robot that nails a **354.37% profit (real money) in 19 days flat... automatically, hands free.**

And not with one, two, or five lucky trades (as you are probably used to seeing in so many hyped-up FX robot vendors' advertising)...

But with with a total of **226** trades!

...And a smooth equity curve that will make your hair stand on end when you see it a bit later.

Think about it... 226 trades: that is an average of approximately 12 trades per day.

- *Not* a lucky streak...

- *Not* a few big lucky trades...

- *No* crazy swings...

...but a smooth (and unheard of) consistent growth throughout the 226 trades!

Of course, you are probably now asking yourself "is this one of the winning robots of the of *The Forex Robot World Cup*[™] competition?"

The answer is a BIG **"YES"** and a small "no"... and soon, you will find out exactly what this "monster" of an FX robot is all about, just a little more patience...

Bottom line though.. it is truly incredible what

**technology has done for the small guy - the type
of potential wealth access it has allowed
him to tap into.**

Now... pay close attention here:

Why did we use the word "*potential*" before "wealth access" in the paragraph above? Well, if you have been reading this letter in that much detail then you obviously know the answer.

Let us make it a little easier for you...

The potential to become financially secure... to increase your wealth exponentially using automated FX robots, is definitely there.

BUT...

It all boils down to one thing really... and that is: it **DEPENDS** on the robot you use!

Obvious... right?

Well... to most people it is actually **not** that obvious. And, as we said much earlier, >it's not their fault.

It's the fault of all those heartless FX product marketers out there who mislead people with false promises, **SUPPORTED** most of the time by deceptive advertising.

As an example:

When the *Forex Robot World Cup*[™] tells you that it will give you a Forex robot that nails a **354.37%** net profit trading, on average, 12 times per day... **THAT** is exactly what you will get.

How can you know that? How can we prove that?

Simple...

We will give **YOU** the investor password to the account the robot has been trading on so YOU can verify not only each and every trade, but also the **FACT** that it is a live, real-money account!

That, our friend, is how hype is separated from truth... that is how cheap marketing is separated from REAL performance.

Again, for those that don't know...

The **ONLY** proof capable of validating an FX robot vendor's claim regarding a robot's performance is by giving YOU the investor password to the account (which is "view only" access i.e. you can see everything, but obviously can't trade the account).

It is quite simple actually: you get a username and password from the account owner, you automatically log into the traded account... and within 20 seconds you can verify each and every CLAIM being made about that account.

Is it live? Is it demo? Does it contain all the trades that Mr. Fx-Robot-Vendor claims in his advertising?

EVERYTHING!

Giving you the "investor password" to an FX account takes 5 seconds, doesn't affect *Mr. Fx-Robot-Vendor's* account in any way, shape or form...

*So, that being said, ask yourself why wouldn't **99%** of robot vendors do it?*

Meaning... it's the right thing to do... it's the honest thing to do... and, above all, it would add credibility to their claims and obviously they would sell more! SELL MORE! Come on... again, SELL MORE!

Don't they want to sell more?

Of course they do... that's their **#1** objective!

Not your interests, not providing you with working robots, not caring if you succeed or not... but only to sell the most they can.

So? What then?

Anyway... "*the writing is on the wall*" our dear friend... in big, bold letters, screaming LOUDLY... just do yourself a favor and be smarter than most FX product buyers!

"The 5 Forex Auto-Income HYPE VS FACT Realities"

The (OLD) Ugly Past... The Beauty Behind (Today's) Truth And How It IS Simple To Nail Huge Profits With Fx Robots

First, before we even start... why did we use the word **OLD** in the above paragraph?

Quite simple actually. Pay close attention:

The way things have been done in the automated Forex trading industry... ruthless marketer's tactics, misleading consumers... *That is all part of the past...*

...of course, so LONG as you open your eyes and pay close attention to the real facts!

If you do, we promise you that, starting TODAY, you will find yourself in a new

world, a new, fresh, automatic, **profit-pulling** opportunity that many dream about and only few have access to.

Look... we are not stupid...

We know the truth, we have been involved in this industry for so long and have seen everything there is to see so nothing surprises us anymore.

Now, with that being said...

We know that many people will just continue buying useless \$97, hyped-to-death Forex robots.

- *Maybe because they are vulnerable to marketing hype?*
- *Maybe because of a lack of industry-specific education?*
- *Or maybe because they want to believe so much that they can't see the **RED** "caution" message?*

And do you know what? Maybe for some, that's the way to learn the hard, brutal reality of how this industry operates most of the time... **paying**, then realizing they have been exploited... and then hopefully learning.

Maybe, that's the way to learn how this industry is controlled by marketers who only care about their own bottom line.

Have you ever heard the sentence "*some people have to learn the hard way*"?

Bottom line, most belong to one of the following 2 groups:

A. People that have been burned already and know the truth

B. People that WILL get burned and scammed by ruthless marketers and WILL know the truth

So... which group do you fall into?

Why don't we let YOU decide based on the following 5 most important "**HYPE VS TRUTH**" industry realities (which we TRULY hope will fall under the category of "*Ugly Past*" for you)...

The "Profit" Hook

- "Automatic 2,000% Per Year Guaranteed Income"
- The Fact: In most cases, it is the FX product vendor advertising this who has a guaranteed income of 2,000% from his investment i.e. cost of website registration, graphics designer etc...NOT you from using his product!
- The Truth: You can easily nail 2,000% profit per year (or MORE) as long as the FX robot you are using adheres to industry standards like the FRWC robots and not to vendor-led "hype" standards.

The "Accuracy" Hook

- The Hook: "Revolutionary FX Robot Nails 97.43% Profitable Trades"
- The Fact: The marketer optimized the robot to death in order to achieve such a high win percentage.
- The Truth: Over 90% of the time, these high-accuracy results are based on hypothetical back-tests.
- Yes, such high accuracy rates *can* be achieved, but are ONLY valid if proven on a real-money, live account. Make sure you ask for LIVE account proof i.e. investor password.

The "Hand Picked" Hook

- The Hook: "\$3,917 In ONLY 4 Trades"
- The Fact: These are hand picked dates and brutally misleading. What about the other 100, 200, or 300 trades on the account?
- Yes, \$3,917 In ONLY 4 Trades... BUT the -\$25,000 in overall losses which the vendor neglects to mention is a poor example of "karma"!
- Hand picking is one of the most ruthless tactics used by FX vendors to trick new FX traders.
- The Truth: Steady income comes from steady gains, and LUCK must never be a part of the equation!

The "Back-Test" Hook

- The Hook: "2,946% Profit In A One Year Back-test"
- The Fact: Back-tests are worthless IF they do not have LIVE trading results supporting them.
- They are only rough indications of what happened in the past. They do not take into account KEY factors (which 99% of the time affect performance dramatically) such as spread widening during volatile or illiquid periods, historical data errors, slippage, liquidity (poor order fills), etc.
- The Truth: The ONLY indication that a robot is profitable is high accuracy and reliable, real-money, live trading. Period!
- When you trade the robot live, you see how well it copes with the KEY factors mentioned above. If it handles them well then you have a true winner!

The "Expert" Hook

- The Hook: "The FX Robot Was Designed By A World-Class Expert/Genius With Extensive Qualifications"
- The Fact: A hyped marketing tactic to build credibility - many vendors use it and, unfortunately, it works on the consumer - more so if explosive titles like "Mathematical Expert", "Artificial Intelligence Veteran", "Bank Trader", "Bank FX System Developer", etc. are used.
- The Truth: First, any such experts would be sitting on healthy \$150K-\$200K per year salaries. They would be people of integrity - true professionals. So, no, they would not be selling an FX robot for \$97 over the Internet.
- Second, the best Forex robot developers come from all walks of life and titles are irrelevant.
- These individuals tend to be people who devote a lot of time into researching trading strategies, trading patterns, price behaviour, etc... but, above all, have that "magic" touch that you do not get from a "title".
- A perfect example of this is Drazen Ziskovic, the FRWC Champion. No grand "title" attached to him... a low key guy, a down to earth person - very smart and very dedicated to what he does.

And the beauty of TODAY'S reality and truth is that:

1. You NOW know better... you are now more educated regarding what it takes in order to make it in the automated FX trading industry.
 2. You will never again fall for the common "*tricks of the trade*"
- You have a lifetime opportunity to, once and for all, make a real
3. living from automated FX trading, increase your wealth like most people only dream of and live your life as YOU want to live it.

But above all...

FREEDOM!

Nothing, we repeat, nothing is more important than freedom...

**Being able to do WHAT you want, WHEN ever you want,
AS you want it...**

...and not having your life being dictated by an 8-5 job, or running a business, or all day thinking of how to pay that debt...

...or even how to earn a just a bit more to go on that vacation you always wanted to go on, buy your loved ones the things you wish you could... not having to think of what will happen tomorrow.

Only automated FX trading can give you that...

Well... let us rephrase this:

Only automated FX trading can give you that, 100% hands-free on complete auto-pilot. And THAT, is the bottom line. Nothing more, nothing less.

However...

All this, of course, depends on which FX robots you use... one of the reasons many people have not been able to fulfill this great dream...*the "automated income" lifestyle.*

And...

If you have been following every step of the *Forex Robot World Cup™* from start to finish:

1. **How** we went to great lengths to recruit the top **329** FX Robot developers from every corner of the globe.

- How** we employed the toughest and most qualifying standards to
2. every EA submitted to ensure that ONLY the best went on to the live, real-money trading phase.
- How** we were 100% transparent from start to finish... no B.S., no
3. tricks, no hype... just the plain truth - open for everyone to see and judge from start to finish.

But, most importantly...

How We Finally "Cracked The *Real Code*"... Managed To Find The BEST FX Robots In The World That Will Change YOUR Future Forever. REAL Profits, In YOUR Account On Autopilot... VERIFIED!

And at the end of the day, when all is said and done... that's what it's all about: PROFITS in YOUR account...

REAL profits... like the top FRWC champion robots PROVE to produce...

...145.60% (LMD-MultiCurrency)... 88.11% (HiRider)... 36.25% (SuperVolcano)... real, spendable money!

- No stories
- No tricks
- No hyped-up marketing tactics
- No "back-test" maybe's
- No hand-picked trades

...JUST REAL proven money, real profits, real financial freedom.

The Forex Robot World Cup™ Presents:

"The Best FX Robots In The World, YOUR Future As A Highly Profitable Automated Forex Trader... REAL Hands-Free Income"

When all is said and done, this is what truly matters:

WHAT YOU GET!...

...that is the bottom line!

For the first time in the history of automated Forex trading, for the first time in

most peoples lives, a true "*competition grade*" VERIFIED automatic income... THAT is what you are about to get.

And... for a few people out there joining the FRWC, life is going to change...dramatically.

Without further ado, we present to you your future in automated income:

(Note: You may click on the relevant areas to view back-test and real-money, live trading results)

NOTE: *In the members area, you will find the **Investor Password** for each and EVERY FRWC account so you can login, verify and certify each and every trade and the fact that each account is a real-money, live account. This process takes no more than 30 seconds.*

These FX robots, our friend, are the difference between thinking something is good... not being sure...

...and KNOWING something is good!

*They have proven, with absolutely no doubt that they are the best in the world... the **TOP**.*

They are a product of a fierce battle amongst the top 329 Forex robot developers... they have been put to the test by the toughest criteria in automated Forex trading: Real-Money, Live Trading.

*And the best part of all of this, that in the **next 5 minutes** they can be working for YOU... on YOUR live account... producing real money.*

The FRWC Support Team - Personal, 100% Client-Driven... And With One Mission In Mind: The Client Comes FIRST!

We have taken automated FX trading standards to a new level when it comes to REAL performance...

From start to finish, those who have been following the FRWC competition know how hard we have worked and how devoted we have been to accomplishing our mission: finding the best FX robots in the world.

But it doesnt end there for us... our dedication goes much further than that... actually, it goes as far as what is most important...

...CLIENT SUPPORT.

*Many neglect (to say the least) this important area, especially on the Internet. **Not us.***

But do you know what?... we will let YOU be the judge of how well we have done our job when it comes to unconditional, fast and value-driven support.

*Below, is a screenshot of the "**Support**" section in the members area:*

NOTE: Once you become our valued client, access the members area, click the "Support" tab and the above screen will appear. As you can see, the following **4** options are available to you:

1.- Submit A Ticket Option

Any question you might have, any comment you want to send to us, any help whatsoever you might need within any area, you can always submit a ticket and we will respond within 12 hours (Monday-Friday).

2. - Live Chat Support Option

Is there anything you need help with but don't feel like submitting a support ticket?

Well, with our live chat function, you can always have access to one of our support members who will be more than happy to assist you. Simply click on the LIVE CHAT icon and connect with us!

3. - Telephone Support Option

We know that many people do not like the "interactive" approach to client support. That is perfectly understandable... especially with all that's happening on the Internet these days.

Anything you need, any questions at all, any support issues... you can reach us by phone. Our support team will be more than happy to talk to you and help you out.

4. - Knowledgebase Option

This is the place to go if you have time and would like to read a bit about what others have been asking, our answers, articles and more.

And THAT is how you provide top-notch, value-driven product support and client service! **4** options, any type of medium, the option you feel most comfortable with... up to YOU!

Before we move on...

We would like to present to you the ACTUAL people who will be handling your questions, comments and support issues...

...the faces behind the Forex Robot World Cup™ client support team!

We are proud to present the official FRWC support team:

**The Forex World Cup™ Support Team
Making Support PERSONAL!**

*We guarantee that you will find our support unmatched, unconditional and most of all, **EAST** and **EFFICIENT!***

Pushing The Envelope A Few Steps Further...

"FX Robot Nails 354.56% Profit In Only 19 Days... A Forex Robot World Cup™ EA Lab Product...Soon Trading For YOU!"

354.56% in 19 days? *What is that all about? Well...pay close attention...*

But...

Before we even dig into what might be the biggest and most important creation in automated FX trading history, we would like to explain what the Forex Robot

World Cup's "EA Lab" is all about...

...but most importantly, how it will benefit YOU.

Now, it is important to know that **ALL FRWC's Royal Trader™ members will have unrestricted access to the "EA Lab".**

Ok...here is whats going on.

Our mission has and always will be to find the best Forex robots in the world...but above all, to always push that envelope a few steps further with one thought in mind:

...YOUR profitability.

That is why we are here, that is why we work so hard...to make absolutely sure that our clients make a lot of money.

That is all this is about at the end of the day: your financial success, your bottom line.

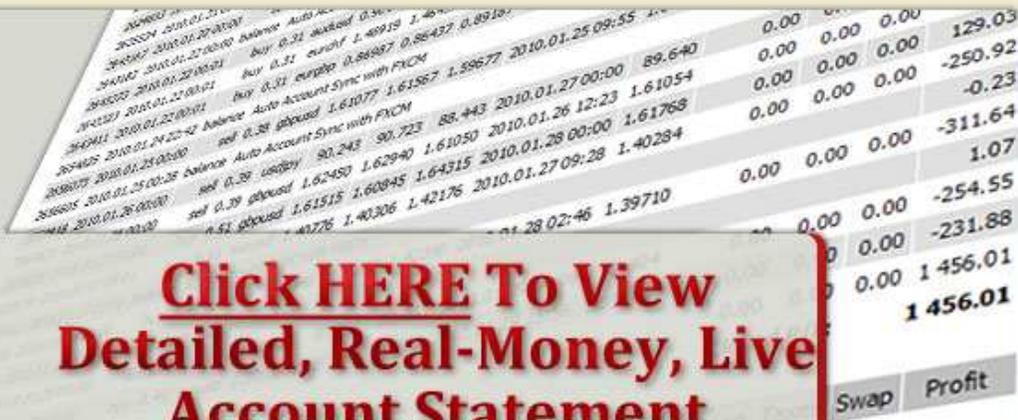

Now...and this is key:

1. Every single FX robot that will be designed by the FRWC in the EA Lab will ALWAYS be tested on real-money, live accounts.
2. You will ALWAYS get unrestricted access to each and every one of these robots as our valued member.
3. As with all the FRWC robots, you will always get investor password to the EA Lab robots accounts for you to verify all trades and the fact that the accounts are LIVE.

We are proud to present to you our first "EA Lab" creation...the **Fusion V 1.1a Robot**, a true ground-breaking discovery:

Fusion V 1.1a Forex Robot

354.37% Net Profit In 19 Days Flat!

The Fusion V 1.1a Forex Robot - Facts

- **Total Number Of Trades:** 226
- **Average Daily Trades:** 12
- **Percent Profit:** 345.37%
- **Average Daily Profit:** 18:65%
- **Equity Curve:** Smooth
- **Account Type:** Real-Money, Live
- **Robot Strategy:** *Combination of:*
 - Scalping
 - Swing Trading
 - Short Term Trend Trading
 - Short Term Reverse Trading
 - "Price Action" - Only Based Trading

Ok...here is what happened "behind the scenes" with the Fusion V 1.1a robot...

After the first month of the live trading phase, we decided to take the top 5 ranked FRWC robots (at that time) and produce a "multi-strategy" Forex robot.

The idea: *combine some of the best FX robots in the world into one single robot with unique money management rules and risk proportion settings.*

It took us about 11 days and 187 hours (working at 18 hours/day) to design Fusion V 1.1a...and then, on January 11th, 2010 we placed it on a real-money, live account...

...and of course, the rest is history!...

354.37%...226 trades....and one of the smoothest equity curves we have seen!

It simply doesn't get better than this...

The first Forex robot in existence that has once and for all proven an important fact:

When done RIGHT...a multi-strategy trading combination can yield unheard of results most people only dream of.

But it has to be done right:

- 1.** *Each and every strategy in the robot has to be of the highest standards, accuracy rates, and reliability.*
- 2.** *The robot has to be able to **attribute** the correct risk and money management settings between all the combined strategies.*
- 3.** *It has to be tested on a real-money, live account. Period.*

And THAT is the key to a new generation when it comes to FX robots...

You see...

We always knew, from the start of the competition, that no matter what happens in the competition itself, our job would always be centered around one fundamental concept "extreme profitability".

Extreme profitability is a very subjective term right?

*Well, yes...it is. **BUT**....*

One persons subjective standard is different from another persons subjective standards!

And...as you know, the Forex Robot World Cup's has set itself to establish new standards in the automated FX trading industry...and that means....

...the HIGHEST possible standards, no compromises, no middlegrounds, no gray zones...the BEST of the BEST!

That...is our guarantee to YOU. Once you join our family, you will always get the best of the best...

You will always get industry breaking automated FX trading robots that the only appropriate word to describe them is "envy"...

...YES, "Envy"...There Is No Other Word To Describe A Power Machine Nailing 354.37% In 19 Days With A Whooping 226 Trades..And On Complete Auto-Pilot!

...and again, this is just the beginning.

It doesn't stop there!

We will be adding to the EA Lab new ground-breaking robots as time goes on...we will keep on pushing the envelope further with one concept in mind: THE SKY IS THE LIMIT.

And the sky is truly the limit when it comes to automated FX trading...but, ONLY if done right.

for what they get

*Automated Forex trading will never be the same again...that is a **FACT**.*

*A new standard had to be established, there was simply no other way around it...but not only a new standard...a **HIGH** standard...*

...a simple "new" standard is not enough.

What the Forex Robot World Cup™ has done, its efforts, its investment in searching for the perfect automated FX complete income solution...it will all soon pay off for **YOU**.

And...we have truly given a new meaning to the term "complete income solution"...

4. Complete Access To The Forex Robot World Cup's "EA Lab"

One of the most important ground-breaking innovations in the automated FX trading industry is the FRWC's "EA Lab".

Accessible to ALL our clients, the EA Lab is simply put: a platform for the FRWC to test new profit pulling ideas, concepts and research.

How dedicated is our team when it comes to researching and generating the best FX robots in the world in the EA Lab?

Well...

We think our first EA Lab product, **The Fusion V 1.1a Robot**, proves it all!

And that is just the beginning...

We are constantly researching ways to further raise the bar. We believe in the concept "the sky is the limit", and that profits are never too big, specially with automated FX trading.

Three important facts about the EA Lab:

A.- All research and creations are tested on real-money, live accounts.

B.- Investor password of accounts being traded by EA Lab robots will ALWAYS be provided to members (for trade by trade and the fact the accounts are LIVE verification)

C.- All creations in the EA Lab are based on the top ranking FRWC competition robots. In other words, robots that have ALREADY proven to be the best of the best and now is the time to make them better!

Be sure...you will ALWAYS get the best of the best from us...but more important:

You will always get a better Forex robot than the previous one! We Will ALWAYS raise the bar.

5. Unconditional, Value-Driven, Quality Client Support

We have made it a FIRST priority to provide unmatched client support to our clients.

Become An FRWC's Royal Trader Valued Member And Start Making REAL Money With The Worlds Best Forex Robots...

If you followed the Forex Robot World Cup automated FX trading competition since it's beginning...you have seen how much effort we have put into finding the absolute best Forex robots in the world.

Our mission and uncompromised mission has been solid every step of the way and has of course yielded its fruits.

But further...

*If you read this letter carefully and in detail, you KNOW that we have accomplished **the main objective** of finding the BEST of the BEST Forex trading robots.*

For the first time in the automated Forex trading history the public has a REAL and VERIFIED lifetime opportunity to not only money...but A LOT of it.

*We will keep saying this over and over again...**the sky is the limit!***

And we not only say that...we have PROVEN it...and that is the most important thing when it comes to YOUR bottom line.

Now...

When it comes to price, we have seen all the ruthless and hyped up marketing tricks vendors use to psychologically pressure people to buy their product.

Just a few examples...

- "Price is going UP soon"

- "After 200 Copies Sold We are Closing The Doors"

- "Hurry Up Because After 200 Members The Product Will Come Off The Market"

Well...the marketing tricks used by vendors goes on and on (you have probably seen most of them!)

*We have **one** important thing to say about that:*

When you provide true VALUE to your clients, you do not need to use any marketing tactics geared towards "price"...

...people are SMART, they know how to identify value and they DON'T need excessive hype tactics to persuade them to purchase the product.

Hence, the Forex Robot World Cup organization will not engage into ANY type of "price" persuasion tactics.
