

### ZOOMED OUT SWING VIEW

### ZOOMED IN DETAIL VIEW

- Trend must be in place (previous swing taken out)
- No counter trend divergence indications.
- A reasonably sharp pullback (45°) to at least the SMA.
- Candle must close below SMA (short) or above it (long).
- CCI must have moved out of the -50 zone for a short and below +50 for a long before re-entering.
- The CCI must be <-50 for a short or >+50 for a long.
- Entry is 1 pip above signal candle high for long or 1 pip below for short.
- SL at previous Low/High, TP at R:R of 1:1.
- If the next candle does not trigger the trade, one more shot providing the candle either straddles the SMA or the high (for a short) or low (for a long) is no more than 2 pips from the SMA. If not, wait for new pullback and signal candle.
- Do not exceed the Elliot 5<sup>th</sup> wave.
- Target no more than 26 pips.
- Trade from 00:00 to 01:30 GMT and 14:00 to 17:00 GMT. (London session to be determined, but quiet after 10:00).
- Avoid trading from 40 minutes prior to news to 15 minutes after.
