If you are new to this forum and you are about to post one of the following or similar questions, please don't!

You need to go to Baby Pips and then you need to read the first 50 pages or so of this thread and find out how this methodology is traded and who are the key contributors.

Also read the pdf and .doc attachments in this thread.

1. What time does Big E trade this method?
2. What pairs does Big E trade?
3. How many candles after TDI can I enter?
4. How do I load an indicator in MT4?
5. What indicators are used?
6. How many pips have you made on this system?
7. You must show me your account to prove you are making pips
8. Send me your template files?
9. Can this be written as an EA?
10. How do you determine SL and TP levels?
11. How do you determine Support and Resistance levels?
12. Where do I find abc indicator - someone needs to post it?

All indicators are either in the attachments section of this thread, or go read this post from the indicator thread for TMS - http://www.forexfactory.com/showthre...09#post5079709
This thread also has an attachments section full of indicators.

Use the Search function and see if that will produce results.

We love questions from traders and love to help - but not really on the 12 questions above. We want you to learn how to fish - not to drink beer and fall asleep in the bottom of the boat!

If you are new to MT4 go the MB Trading - http://www.mbtrading.com/searchresults.aspx?q=tutorials and they have MT4 web tutorials - great information - that's how I got started.

Hi Folks,

Here's a summary of my indicators per the screenshot:

Main Chart:
Synergy_APB
ATR Pips UL Corner - Periods 7, Multiplier 1
MA - 5EMA - Shift 2 - Price Typical
Bill Williams Fractals

Indicator Window 1:
TMS-Osc Histo 3TF

Indicator Window 2:
TMSTDI_Watchdog - adjust the settings for your own needs on the alerts - leave the TDI settings alone!

Indicator Window 3:
Stochastic Oscillator set to 8-3-3
RSI set to 10

All of these are on the MT4 platforms apart from the TMS / TDI indicators which will be in the attachments sections of this and the TMS thread.
