

# SYMBOL CHANGER LUXMOD Indicator

- 1) Extract file **Symbol Changer Luxmod.ex4** into your MT4 Indicator folder (C:\...\MQL4\Indicators).
- 2) Extract file **Symbol Changer Luxmod.set** into your MT4 Preset folder (C:\...\MQL4\Presets).
- 3) Open MT4 Terminal;
- 4) Load **Symbol Changer Luxmod.ex4** into your Strategy;
- 5) Go to **Main menu** → **Charts** → **Indicators List (CTRL+I)** → **select Symbol Changer Luxmod.ex4** → **press Edit** → **go to Inputs** → **press Load** → **go to C:\...\MQL4\Presets** → **select Symbol Changer Luxmod.set** → **press Open**
- 6) Enjoy!

**Important!** If you add/remove new Symbol into/from your MT4 Market Watch (CTRL+M), you have to load **Symbol Changer Luxmod.ex4** again into your Strategy to see changes.
