Comment: Well this pair is still bullish on the Daily chart. We didn't get a close of .8748 on this chart but we did on the 4hr. Which means we still have some steam left but not quite as much as if it would have closed on the Daily.

Comment: Bulls are still in control but we can see we have profit takers attacking at the Tenkan line.

1Hr Candlestick Chart

Comment: Weak Bearish with consolidation at the Ts. If close above .8730 look for Bullish sentiment again to continue.

Trends	
Major Trend (D)	Strong Bull
Median Trend (4hr)	Strong Bull
Minor Trend (1Hr)	Weak Bear

Conclusion: Going to Friday which as per my preference which is not to trade due to volatility and unpredictable big boyz. I suggest you pick your trades wisely if you do go in. This pair is still pushing forward but we've seen these levels since Aug 08 keep your stops tight.
