

“Price is Everything” - PASR Examples

Compiled: 14/08/2013 (EA)

(Source: <https://sites.google.com/site/acegazette/home/pie>)

A Tip on the following: To all you here to learn about PASR If you don't read the intro you might as well delete the PDF as this will be lost on you. There are instructions contained here

Note:

This mix of charts you will find below is intended to present a visual example of PASR. The intent here is not to make any comment on the charts as there is plenty already that has been documented by the people who compiled these charts (see source).

Instead the focus is to use this mix of H4/D/W charts in conjunction with the 2 previous PDFs I have posted around the topic of PASR. These examples are intended to make you think outside of the box ...to spur on the expansion of your understanding of TMS and how it can be enhanced by taking the time to learn PASR. It may even spur you on to think you should look at the “bigger picture” and do a top down analysis using multi time frames looking for key areas of PASR to make a plan A,B,C for the pairs you trade.

Remember a trading system is not based on its entries.. There is more to it! PASR is just one of the core concepts of the expand TMS method Emmanuel has enlightened us with. If your light bulb hasn't switched on already let me help....why not pull up your charts while you flip through the PDF & select the currency pair you are looking at on the page and scroll back in time to see how TDI reacts with the below examples of PASR...what will you learn? Well ...backtest and find out! These are just examples and places that outline key places of PASR to help you understand how TMS entries react around these points.

Remember PASR is only an element of our system – there is more to it than PASR & TDI Crosses. Do you have a system? By System I don't mean entries, exits & stops. There is more to it than that & there is a lot more about trading than just entering a trade.

Enjoy looking over the below charts and if you haven't done so already read the previous PDFs I have posted on PASR as this is the 3rd instalment of the 3 part series to have some sort of collective reference to PASR in the TMS thread for all those that struggle with the concept.

If you trade a 1H or lower timeframes you may be asking where are all the 1H charts. Well sorry but they aren't here (go to the source & compile a PDF just like this to backtest with TDI if your looking for more PASR examples) Eventually I intend to expand my system to enable me to switch down to 1H but I have a day job that makes it hard to commit to watching hourly charts. The expansion is part of my system but will not happen until I reach certain objectives (if you don't know what I am getting at here – get your hands on a book by Van Tharp)

4H Chart Examples

READ ME: Pull up your charts while you flip through the PDF & select the currency pair you are looking at on the page and scroll back in time to see how TDI reacts with the below examples of PASR...what will you learn?

EURAUD,H4 1.49218 1.49989 1.49184 1.49816

59 minutes 34 seconds left to bar end

EURAUD,H4 1.48293 1.48484 1.47724 1.47846

118 minutes 46 seconds left to bar end

EURNZD, Daily 1.82050 1.82867 1.80893 1.81364
627 minutes 1 seconds left to bar end

EURNZD, Daily 1.79042 1.79547 1.77809 1.78637
399 minutes 24 seconds left to bar end

EURGBP.H4 0.83323 0.83387 0.83237 0.83310
63 minutes 2 seconds left to bar end

Long term position, EG in supply zone within established downtrend, stop above zone and spooky even number 0.84000, tg open

AUDUSD.H4 0.87237 0.87600 0.87225 0.87379
27 minutes 2 seconds left to bar end

this area has been spiked, this may not have any supply left
to turn prices, and may need to go a little higher to find
a more defined supply, willing sellers
awaiting bearish engulfing for entry, scalping north
in the meantime

The only way too determine if there is any supply left at this zone is wait for
prices to tell, an engulfing bearish pattern is a good indicator if this supply
level is still a supply level

EURAUD.H4 1.4400 1.4427 1.4399 1.4419
109 minutes 51 seconds left to bar end

USDCHF D1

clear drop, very tight zone, supply

cluster resolved south

supply zone

just missed zone, implies high supply

supply zone above has created a flag

flag should complete @ demand

demand zone, awaiting prices in zone, reaction and long

source of strong rally

pole

GBPUSD D1

COMPARING THE NATURE OF THE DROPS

dropped on a pin

These wicks could be supply
consumption to move higher and
NOT REJECTION WICKS!

no pin, but bearish engulfing drop
