

HOW TO INSTALL

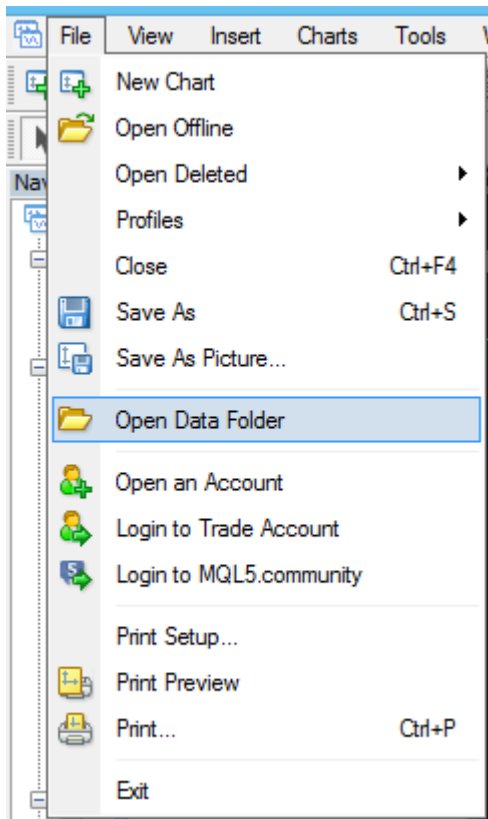

RenkoStreet V 2.0 Trading System

IMPORTANT NOTE:

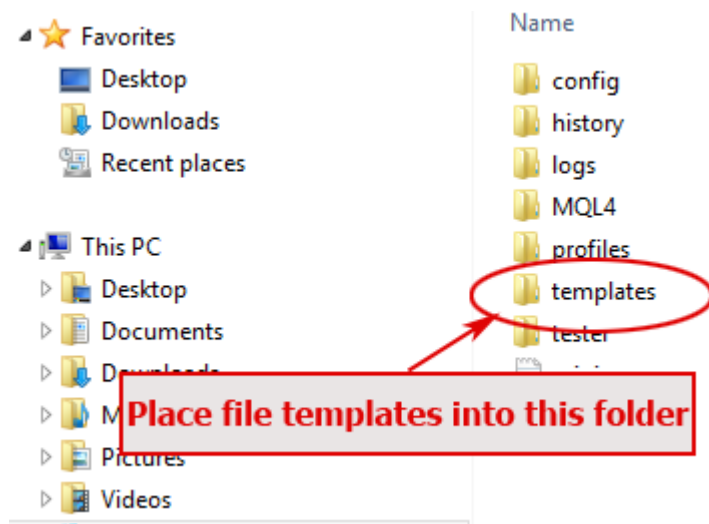

You can not install the system in the Market Closed.Saturday and Sunday.Wait till Market active on Monday-Friday.

Follow these steps to install:

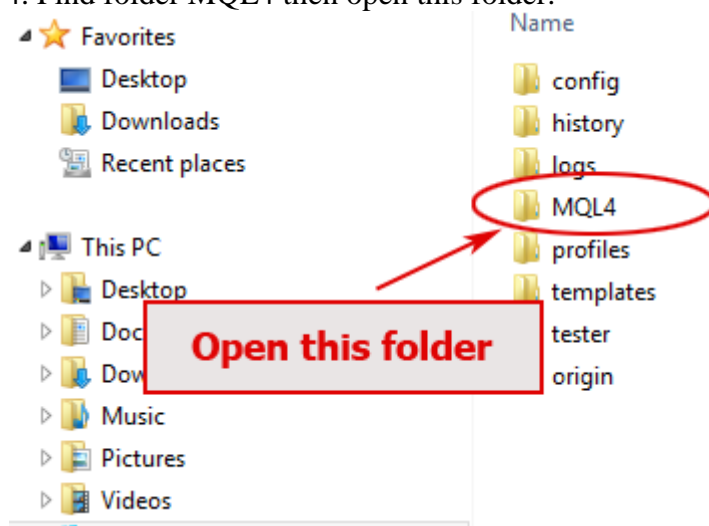

- 1.Extract file .RAR
2. Open your MT4 then click Files→Open data Folder.

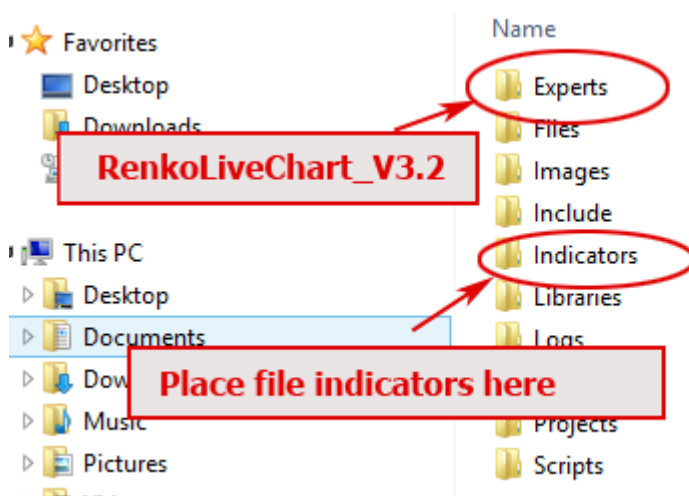

3. Place file templates into folder Templates.

4. Find folder MQL4 then open this folder.

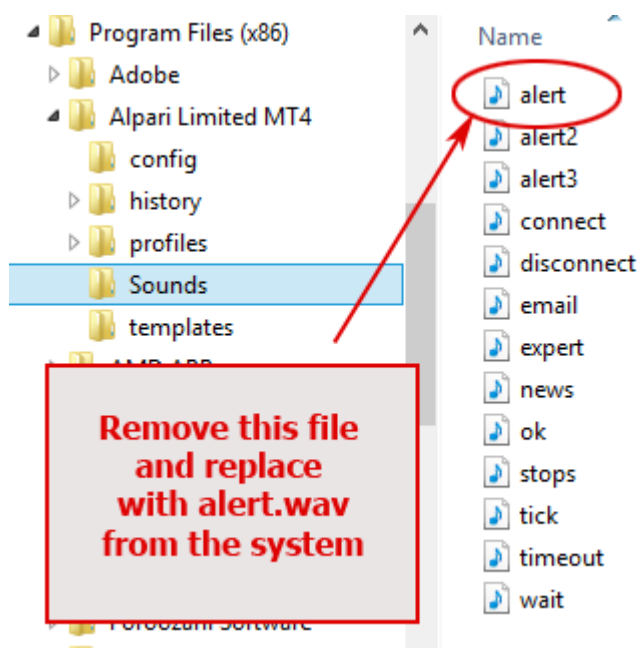

5. Place file Indicators into folder Indicators, Expert into Folder Experts.

6. Optional.

If you want to change sound alert with sound alert from the system. Go to C:\\Program files\\Your MT4 folder\\Sounds. Then replace alert.wav with file from the system.

7. Restart your MT4.

8. Open your preferred pair, e.g. EUR/USD, select TF M1, zoom out, turn off chart shift and auto scroll. Click and hold button "Home" on your keyboard to download data history.

9. Attach RenkoLiveChart_V3.2 to chart.. wait till you see notification at top-left and top-right of your chart.

10. Click File → Open offline, select EUR/USD M2 → Click Open.

11. Select Template of RenkoStreet V 2.0 then Load Template to chart.

12. You are ready to trade.

For more details how to install RenkoStreet V 2.0, please refer to this video:

Where is M2 offline?

This is most question asked. The answers are:

1. Do not install in the market closed.

2. Refer to step no. 10

2. Refer to step no. 8. Do not forget to click "Home" after you attached RenkoLiveChart_V3.2. This way is to download data history of your chart. So, EA can work properly.

There are 6 templates, which one is the best?

All are the best and all are same, the different is the display of each template. You can choose by your self which one is comfortable for you doing a trade.
