**Forex Trader:**

Did you know there is up to 80 different Forex Currency Pairs that can be traded?

What if we told you that you could drop over 80% of all the currency pairs out there and just focus on Swing Trading the very best performers. Over the last 5 years, we have tested and live traded thousands of forex trades amongst dozens of pairs.

Quite simply, this is the Forex Secret 12. The Top 12 Pairs that Swing Traders should focus on in 2017 and beyond:

1. EURAUD
2. GBPAUD
3. XBRUSD
4. XTIUSD
5. NZDCAD
6. CHFJPY
7. USDJPY
8. GBPUSD
9. USDCAD
10. XAUUSD
11. GBPCAD
12. EURJPY

Surprised? I know, where's EURUSD. We love that pair for day trading but NOT swing trading. You still have the expected pairs like GBPUSD and USDJPY but there are quite a few surprises in this list. By dropping 80%+ of the pairs and focusing on this core group we have dramatically improved our results. Now, it's your turn!
