Risk Disclosure Statement.

Trading any financial market involves risk. This e-book, software, and the website and its contents are neither a solicitation nor an offer to Buy/Sell any financial market. The contents of this e-book and software are for general informational purposes only (contents also mean the website and any email correspondence or newsletters related to the website).

Although every attempt has been made to assure accuracy, we do not give any expressed or implied warranty as to its accuracy. We do not accept any liability for error or omission. Examples are provided for illustrative purposes only and should not be construed as investment advice or strategy.

No representation is being made that any account or trader will or is likely to achieve profits or losses similar to those discussed in this e-book and software. Past performance is not indicative of future results.

By downloading the e-book, and software, subscribing to our mailing list or using the website you will be deemed to have accepted these terms in full. The author, the website, the e-book, the software and its representatives do not and cannot give investment advice or invite customers to engage in investments through this e-book, software. We do our best to insure that the website is available 24 hours per day but we cannot be held liable if for any reason the site is not available.

The information provided on this ebook, software is not intended for distribution to, or use by any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation or which would subject us to any registration requirement within such jurisdiction or country.

Hypothetical performance results have many inherent limitations, some of which are mentioned below. No representation is being made that any account will or is likely to achieve profits or losses similar to those shown. In fact, there are frequently sharp differences between hypothetical performance results and actual results subsequently achieved by any particular trading program.

One of the limitations of hypothetical performance results is that they are generally prepared with the benefit of hindsight. In addition, hypothetical trading does not involve financial risk and no hypothetical trading record can completely account for the impact of financial risk in actual trading. For example the ability to withstand losses or to adhere to a particular trading program in spite of the trading losses are material points, which can also adversely affect trading results. There are numerous other factors related to the market in general or to the implementation of any specific trading program, which cannot be fully accounted for in the preparation of hypothetical performance results. All of which can adversely affect actual trading results.

We reserve the right to change these terms and conditions without notice. You can check for updates to this disclaimer at any time without notification. The content of the website and this ebook and software are copyrighted and may not be copied or reproduced.

INSTALLATION INSTRUCTION

1. Download your file (magictrend.zip) and save it on your computer
2. Extract the downloaded file into a folder
3. Go to that folder and you will see the file "Trend Magic.ex4"
4. Copy the file Trend Magic.ex4 to Meta Trader's **indicators** folder. For example: if your Metatrader 4 is installed at C:\Program Files\ Meta Trader 4, then the **indicators** folder should be located at **C:\Program Files\ Meta Trader 4\expert\indicators**
5. Start Meta Trader 4 and go to Insert → Indicators → Custom → Trend Magic or attach it from the navigator panel on the left hand side

HOW TO USE THE TREND MAGIC

The Trend Magic Indicator will show the trend and how to ride the trend to make good profit. The rule is very simple

- Enter a LONG position when the Trend Magic is BLUE and go up (not flat)
- Enter a SHORT position when the Trend Magic is RED and go down (not flat)

Exit your position when the Trend Magic shows a reversal signal. You can use this indicator in any timeframe but I suggest on 1-H and 4-H

Examples

SHORT position

LONG position

There it is, I hope you enjoy this cool indicator and start making handsome profit – you have already walked halfway through the road to find success in Forex! In the next few days, a MAGIC in automated forex trading industry will appear. This will change everything you ever know about forex. Stay tuned and watch out
