How to set and activate Levels and RedNews-items

Set Long/Short levels

- Click on the button: **Long.txt** or **Short.txt** for setting your levels
- Now Notepad is opened with the Long.txt or Short.txt input-file

NOTE: It is important NOT to remove the first line!!

The file must contain the following structure:

INSTRUMENT;StartTime;ENDTime;Level

USDCAD;2017.07.28 00:00:00;2017.07.28 15:00:00;1.2530

It is important that the above line is in this structure including the ";" "." And even spaces!
Also NO whitelines at the end of the file!

In This EA we can use 5 different Instruments:
