Comment:

No pressure on this pair so for new entry point we had to found a good setup.
Supported by H4 and H1, best setup was when price bounced from M15 Kumo and M5 TS crossed KS and price went under thin kumo after 6.00 GMT.
Entry Point: 1.0840 Short
Stop Loss: 1.0900 Above M15 Kumo
Take profit: 1.0766 Price closed above KS on M5 (11.55 GMT)
