Technical Analysis

21 September 2009
GBPUSD

Comment:

All signals point to a bearish trend continuation...

We seem to have rejected the Monthly Ks....

Watch for the Ts to act as support (beware the Weekly Ks in front of it)

Comment:

We seem to have a second rejection of the Senkou Span B....
 Price is trading within the Kumo....
 Possible Intraday Shorts to the Ks (Monthly Ts is just behind)

Daily Candlestick Chart

Comment:

We finally see something happening on this pair from Fridays trading!!!!

If we get a Strong TsxKs soon we will have confirmed bearish trend on the daily chart...

Trends	
Major Trend (M)	Bearish
Median Trend (W)	Neutral Bullish
Minor Trend (D)	Bearish

Conclusion:

I will be looking for Short Trades this week should we get a confirmed down trend on the Daily Chart... Our first support level is from a C-Span S/R at 1.5960ish... then we have the Weekly Ks around 1.5575....and the Monthly Ts around 1.5275...
