USE MS2 TAKE PROFIT	Yes/No
USE S2 TAKE PROFIT	Yes/No
USE MS3 TAKE PROFIT	Yes/No
USE MS3 TAKE PROFIT	Yes/No
Alerts	<ul style="list-style-type: none">• Push notifications• Desktop alerts• Mobile alerts• Email alerts

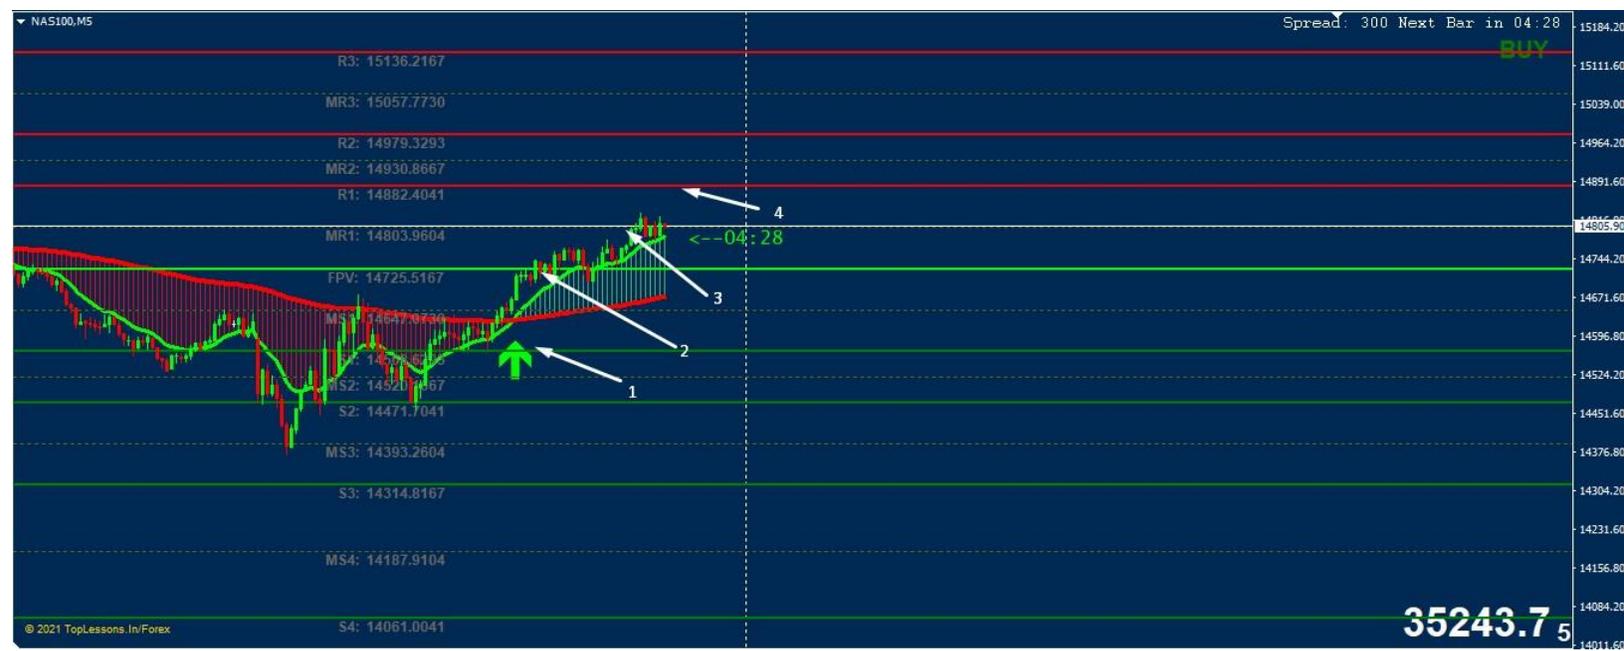

Strategy Outline:

1. The green moving average should cross over below the red moving average for a sell. (RED ARROW)
2. The sell trade should only be executed at the FPV line as soon as the candle stick touches the FPV line
3. The EA should close trades at the following the levels if set to yes Take Profit at:
 - MS1/MR1
 - S1/R1
 - MS2/MR1
 - S2/R1
 - MS3/MS1
 - S3/R3

Buy trade conditions:

1. Buy signal arrow when green moving average crosses red moving average
2. A buy trade should be executed at the FPV line with the inputted number orders e.g. if 5 trades were stated then 5 orders should open.
3. If MR1 is set to yes as take profit level then orders should close at MR1 level

If MR1 is set to no as take profit level and R1 is set as yes then orders should close at R1 instead of MR1.

SELL trade conditions:

1. Sell signal arrow when green moving average crosses red moving average
2. A sell trade should be executed at the FPV line with the inputted number orders e.g. if 5 trades were stated then 5 orders should open.
3. If MS1 is set to yes as take profit level then orders should close at MS1 level
If MR1 is set to no as take profit level and R1 is set as yes then orders should close at S1 instead of MS1 etc

NOTE: trades should only execute one order per signal, for example if trade closes MS2 for take profit and conditions are still met then another trade should not open until the next signal occurs

Order close on touch of moving average (true/false):

- Trades should close at the touch of the 2nd moving average (red moving average) it should not wait for candle to close, the moment the candlestick touches MA then orders should close

When FPV line set to false:

- When FPV line set to false then take profit levels can be disabled and entries can be executed immediately there's an entry signal.

visual information management control panel with the following information:
